

CINERGY Tstick VIDEO HD

DVB-T TV Receiver and Video Converter in one

- USB 2.0 receiver for DVB-T and analogue cable TV and radio
- Inputs for digitizing and processing of analogue video
- Digital video recorder
- Direct recording and programming via EPG
- Teletext, Time-shifting TV programs
- Automatic wake-up and shutdown (standby / idle state)
- MAGIX Video editing software
- Including remote control and DVB-T antenna

USB 2.0 TV tuner for DVB-T and analogue TV and radio with external analogue inputs for digitizing and editing of analogue video sources. The product is equipped with TV-Software to watch and record TV. It also includes the powerful MAGIX video editing software. Last but not least a DVB-T antenna and a remote control is included.

Ready for HDTV and Dolby Digital

The TV Tuner is prepared for the reception of High Definition TV and can also handle sound in Dolby Digital quality.

Recording and time shifting

The included TV-Software turns experiencing TV on computer into an adventure. You can record your favorite TV program to your hard drive easily and burn it later on a DVD or put it on a Mediaplayer. If you are getting disturbed watching your favorite TV program, no problem. Just click on the pause button and you can watch the show where you left off without missing a thing. The built-in Electronic Program Guide (EPG) and the Teletext function make personal TV planning easier than ever.

Analogue Inputs

Besides watching TV on computer, you can also digitalize and edit your analogue videos with this product and save them to your hard drive, Mediaplayer or network drive (NAS).

The Cinergy T Stick Video HD is equipped with analogue audio and video inputs (S-Video, Composite, and Stereo-Audio). With the included MAGIX video editing software you can digitalize analogue videos from your VCR or camcorders to your hard drive. The Cinergy T Stick Video HD saves your entire video cassette for the future.

The complete package

The Cinergy T Stick Video HD comes in a complete package for all your needs. The TV-Software for watching TV even in HD, MAGIX software for powerful video editing and all necessary cables and accessories. You can start using the product with all its functionality as soon as you get home.
